

OnTimeParts Tutorial: Adding parts to Cart

After you find the part you are searching for, adding the part to your cart is the next step in your online shopping experience.

- If you have not already logged onto the site, you'll need to do so in order to see the parts prices and add parts to your cart.

- Once you have logged onto OnTimeParts.com, adding parts to your cart is as simple as clicking on the “Add to Cart” button associated with your desired part:

Footswitches

OnTimeParts™ > Parts by Category > Electrical & Electronic Components > Switches & Relays
> Switches, Parts & Accessories > Switches & Switch Assemblies > Footswitches

Add to Cart

*If you attempt to add a part to your cart before logging onto the site, you will be redirected to a log in page before being taken to your cart.

- While in the cart, users have the ability to add in their own part reference information that will be transmitted on the invoice, packing slip and sales order acknowledgement so that the information is communicated to everyone involved in the procurement and receiving operations.

- You'll notice that most of our parts have a default quantity of '1' filled in the quantity field. That number is editable and may be adjusted either before it is added to the cart or while it is in your cart.
- If you chose to update the quantity while it is in your cart, after you edit the quantity, you need to click on the "Recalculate" button for the new quantity to be saved and price to be adjusted.

- Intelligrated sells some parts that require an order minimum or a fixed multiplier, for instance, one must order a minimum of 10 or must be ordered in lots of 10. The parts that don't have a default quantity of '1' listed in the text box next to the "Add to Cart" order button will have a message about the order minimum and required order quantities.
