

OnTimeParts.com Tutorial: Saving, Updating and Sharing a Cart

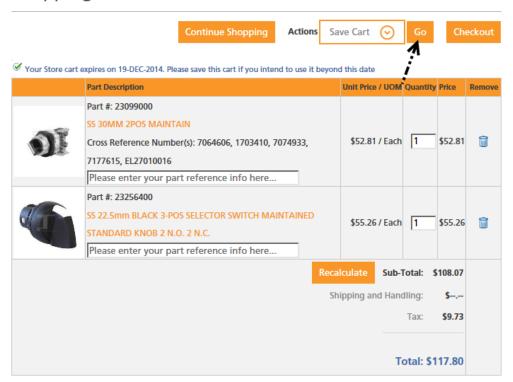

Intelligrated allows the user to save multiple carts on OnTimeParts.com. This allows the user to assemble orders and save them until you are ready to purchase, which can be very convenient if you are gathering information for a project. You can create and save as many carts as you like, but there is a 30-day expiration date. If you would like your parts to be saved for longer than 30 days, we recommend you use the "Saved List" function.

The Save Cart feature is only available from within an active Shopping Cart.

To save a Cart:

• After you've added all the parts to your cart that you're interested in saving to a Cart, make sure the "Actions" field says "Save Cart" and click on the "Go" button.

Shopping Cart

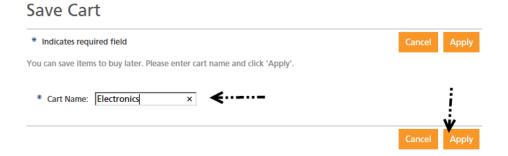

• After clicking on the "Go" button, you will be taken to a page where you will be asked to name your cart and then save it by clicking the "Apply" button. If you click on the "Cancel" button, you will be redirected back to your active Shopping Cart.

• After entering a cart name and saving, you will be redirected to a Saved Cart Detail page.
